All--

So the FRN saga continues. It now appears that Russell Calender is out of the office until Thursday and unable to sign the FRN until then. We can continue to move forward with just NOAA signing the FRN as we discussed on the call. However, it also gives EPA the opportunity to get Dennis to resign (again) the FRN and overnight it to me.

I'll let EPA decide how they would like to proceed. However, if Dennis does resign, please do the following:

1. Use the reversion of the FRN attached. The FR prefers not to have the signature block on page by itself. We could have provided an explanation as to why that was before but if we're resigning, might as well avoid that.

2. **Print out 3 copies, singled sided** for Dennis to sign.

3. Do not have Dennis date the FRN when he signs.

4. Overnight to: Allison Castellan
